EDUCATION

Master of Computer Applications, CMR University Expected 2025
CGPA: 8.58

Bachelor of Science in Information Technology, Marwari College (Ranchi University) 2020 - 2023
CGPA: 8.01

SKILLS

Frontend Technologies	JavaScript, React.js, HTML, CSS, Tailwind CSS, SvelteKit
Programming Languages	C++, Java, Python, DSA
Database Management	MySQL, SQLite, MongoDB
Tools	Visual Studio Code, Git, GitHub, Android Studio
Frameworks	.NET Framework
Backend Technologies	Node.js, Express.js

EXPERIENCE

Software Development Intern Dec 2024 - Jan 2025
ExclCloud, Bengaluru, Karnataka

- Learned SvelteKit and contributed to the "Donut" website, enhancing its features.
- Developed the "One on One Meeting" feature using Supabase for efficient meeting management.
- Built the "Taco Reward System" bot for MS Teams to track and reward taco points, enhancing team motivation.

Freelancing work on the Travelyatri MERN website 2025

- Developed responsive frontend using React and Tailwind CSS.
- Integrated user authentication and booking UI components.
- Collaborated with backend to connect APIs for tours and users.

PROJECTS

Chat Application - React, Tailwind CSS, Express.js, (MERN Stack)

- Built a real-time chat application with secure JWT-based authentication.
- Implemented WebSockets with Socket.IO for instant messaging.
- user sessions and chat data efficiently with Express.js and MongoDB.

Uber Clone - React, Tailwind CSS, Express.js, socket.io (MERN Stack)

- Built a full-stack Uber clone using MERN with real-time booking and Google Maps integration.
- Implemented JWT authentication, role-based access control, and a responsive UI with React and Tailwind CSS.
- Developed and deployed a scalable REST API with Node.js and MongoDB Atlas for trip and fare management.

One on One Meeting Feature for Donut Website (SvelteKit, Supabase)

- Designed and implemented a meeting scheduling and management system for the "Donut" website using SvelteKit and Supabase.
- Streamlined the scheduling workflow, improving user engagement and productivity.
- Added meeting history tracking, allowing users to view past meetings and notes for better record-keeping.
